

To whom it may concern

We hereby confirm:

Dimethyl fumarate (CAS no. 624-49-7) has not been intentionally added for the production of the Bayer MaterialScience thermoplastics

Apec, Bayblend, Desmopan, Makrolon

and is not expected to be contained.

The presence of analytically detectable traces of the above mentioned compounds, which have possibly been introduced into our product via the raw materials, auxiliaries and additives, can not be excluded.

We hope you will find this information useful. If we may be of any further assistance, please feel free to contact us.

This information and our technical advice - whether verbal, in writing or by way of trials - are given in good faith but without warranty, and this also applies where proprietary rights of third parties are involved. Without any assumption of any liability whatsoever, Bayer MaterialScience AG will strive to keep the following information up-to-date. A notification of eventual updates can and will not be made.

Our advice does not release you from the obligation to verify the information currently provided – especially that contained in our safety data and technical information sheets – and to test our products as to their suitability for the intended processes and uses. The application, use and processing of our products and the products manufactured by you on the basis of our technical advice are beyond our control and, therefore, entirely your own responsibility.

Our products are sold in accordance with the current version of our General Conditions of Sale and Delivery.
